TOEFL or IELTS: We require a minimum TOEFL score of 550 which is equivalent to a computer-based score of 213 and an Internet-based score of 79. The required minimum IELTS score is 6.0.

**Condition T1: No or low TOEFL or IELTS score.**

*Required actions:* Arrive at Missouri S&T approximately 1-2 weeks before the semester starts and take a test managed by the Intensive English Program (IEP) at Missouri S&T.

*Explanations:* If your IEP score is high enough, you will be allowed to enroll in regular academic courses; and if your score is low, you will be asked to take and pass a number of required English courses before you can enroll in regular academic courses. Note that it is possible for someone whose score is high enough (but still lower than the required IEP score) to take both English and academic courses simultaneously.

**Condition T2: No or low TOEFL score, but have passed the final test of a creditable intensive English program in another university.**

*Required Actions:* Bring related documents to the IEP office. The IEP instructor and the Geology and Geophysics program will decide if your English proficiency is sufficient for successfully enrollment in academic programs on a full-time or part-time basis.

**GRE:** We require a minimum score of 600 (or 148 on the post-August 2011 scale) for the Quantitative part of the GRE, and a minimum score of 3.0 on the Analytical Writing part.

**Condition G1: Have a valid GRE score, but the Quantitative part is lower than the required minimum score.**

*Required actions:*

*Option 1:* Pass an appropriate math or another math-intensive course with a score of C or better to improve quantitative skills during the first two semesters.

*Option 2:* Retake GRE during the first two semesters and obtain the required score.

*Option 3:* Receive a GPA of 3.3 or higher during the first two semesters. At least 9 credit hours must come from Geology and Geophysics graduate level (300 and 400-level) courses.
**Condition G2: Have a valid GRE score, but the Writing part is lower than the required minimum score.**

**Required Actions:**

*Option 1:* Pass an English writing course (English 60 or 160) with a score of C or better to improve writing skills during the first two semesters.

*Option 2:* Retake GRE during the first two semesters and obtain the required score.

*Option 3:* Receive a GPA of 3.3 or higher during the first two semesters. At least 9 credit hours must come from Geology and Geophysics graduate level (300 and 400-level) courses.

**Condition G3: No valid GRE scores or both W and Q scores are lower than required scores.**

**Required Actions:**

*Option 1:* Pass an appropriate math or another math-intensive course with a score of C or better to improve quantitative skills during the first two semesters, and pass an English writing course (English 60 or 160) with a score of C or better to improve writing skills during the first two semesters.

*Option 2:* Retake the GRE during the first two semesters and obtain the required scores.

*Option 3:* Receive a GPA of 3.3 or higher during the first two semesters. At least 9 credit hours must come from Geology and Geophysics graduate level (300 and 400-level) courses.
